During June and July approximately 600 tons of tungsten were shipped from Canton to the USSR. During the same period the total exports to the USSR from Kiangsi, Kwangtung and Kwangsi were estimated to be 1,000 tons monthly. The ore is 75 degree pure quantity or better (sic).* Canton authorities expect to ship more tungsten during August. Ore from Nampeng (117-, 23-) Island, 180 miles southwest of Hong Kong, has been an additional source of supply since the Communist took it on 9 August. Nampeng tungsten production under the Nationalist was about 200 tons monthly.
